FOR IMMEDIATE RELEASE

Rulemaking Process for New Administrators

Salt Lake City — November 5, 2004 — Nowadays, we expect government to be a lot of different things. Fundamentally, we expect government to be fair. To ensure fairness, the Legislature imposes processes and procedures on government agencies. These laws include, for example, the Government Records Access and Management Act, the Utah Administrative Procedures Act, the Open and Public Meetings Act, the Utah Procurement Code, and the Utah Administrative Rulemaking Act.

In today's complex world, with a Legislature that meets and makes laws only 45 days each year, the Legislature cannot possibly address all of the issues that have become the government's responsibility. Therefore, the Legislature creates administrative agencies and gives them power to regulate. For example, in 2004, the Legislature passed 89 bills that created or modified explicit rulemaking authorizations.

To help new state administrators understand their responsibilities under the Utah Administrative Rulemaking Act, the Division has scheduled a Rulemaking Process Seminar for New Administrators on:

- □ Wednesday, January 12, 2005, from 9:00 a.m. to 10:30 a.m.
- □ (repeated) Wednesday, January 26, 2005, from 9:00 a.m. to 10:30 a.m.

To attend either the January 12 or January 26 seminar, please R.S.V.P. to Ms. Sophia Manousakis at 801-538-3764 or smanousa@utah.gov. In compliance with the Americans with Disabilities Act, persons needing auxiliary communicative aids and services for this meeting should notify Ms. Manousakis at least three working days in advance of the meeting.

If you have questions about the content of the seminar, please contact Ken Hansen at 801-538-3777.
